FIELD DAY WRAPUP

Well another Field Day has come and gone and luckily Murphy departed early. Except for a galled nut on a U bolt and then misplacing the other U bolt things went fairly smooth. Our intrepid antenna line launchers had a rough time with the wind but everything was up and running well before the start of Field Day and as luck would have it the Air Conditioning blower didn't die until early Sunday morning. The weather held and it was

a beautiful weekend. Score wise we did the same as last year. On the following pages are some pictures of the operation along with charts and graphs of the contacts made. Log1 on the graphs is for this year and Log2 is for last year 2011. The computer networking worked like a champ and both Phone and CW logs are an exact match of each other. Field Day 2012 is in the books and now its time to get ready for Field Day 2013.

JUNE MEETING MINUTES

Because of the early end of the

school year, Nor-mandy Park School was not open and we

were not able to hold a June meeting.

Let's see. It says connect end "B" to end "C". Where's "C"? I can only find "E".

Do you think we can find our way back by the start of Field Day?
